## Jak zmierzyć wkładkę?

Po zamontowaniu wkładki bębnekowa nie może wystawać poza szyld więcej niż 3 mm, co zapewnia bezpieczeństwo antywłamaniowe. Długość wkładki mierzona jest od początku bębinka do środka śruby mocującej. Należy podać wymiar strony wewnętrznej A oraz strony zewnętrznej B. Jeżeli jest to wkładka z gałką konieczne jest dodatkowo określenie, po której stronie ma się ona znajdować.

- A STRONA KRÓTSZA
- B STRONA DŁUŻSZA
